OUR STORY

Established in the year 2001, CRBtech is a leading training institute and career development company in India. CRBtech has introduced a comprehensive 360 degree software application & internet based training program which is partly funded. This innovation delivers excellent online training in the field of your specialization.

With the advent of new technology the entire world has shifted to online training completely. In order to be updated with the latest trends in the field of education and career development we at CRBtech have inculcated the same formula by introducing a very simple, user-friendly platform for all the students to easily sharpen their skills and specialize in multiple subjects in which they wish to build their career. Apart from our efficient online training program we also provide access to multiple companies through which our students can achieve their professional goals.

While being funded for the training every candidate can work for their dream job by working from home. Our funding program is exclusively created for many of our students who find it very difficult to carry the financial burden.

OPEN YOUR DOORS TO INTERNATIONAL OPPORTUNITIES

BE BILINGUAL WITH CRBTECH !

1. At CRBtech our training programs are designed to help job aspirants get placed into international organisations as well. Our foreign language training will help you reach mid to high level language skills

2. This training program will help you achieve good command over Technical Foreign Language instead of introductory & spoken

3. At CRBtech we focus on technical foreign languages like Japanese, German, French and Spanish

4. With bilingual skills you can easily explore around you and make professional connections in foreign countries

5. Multinational companies situated in India will give preference & chances of going on site

6. Having good command over a foreign language will not only help you in getting a VISA but also a Permanent Residency in a respective country

7. Finding professional connections internationally increases your professional networking pool and gives you multiple job opportunities
